BUSINESS MANAGEMENT & ANALYSIS

I have 1 year of experience working as a data analyst, with a focus on data mining, data cleaning, data modeling, and data visualization. Throughout my career, I have developed the skills and expertise necessary to effectively analyze data and identify key trends and patterns. I have also created prediction models and utilized various types of visualization in order to provide valuable insights and recommendations to organizations. Overall, my experience as a data analyst has allowed me to make a significant impact in the field of data analytics.

KEY COMPETENCIES

Structure Query Language	Microsoft PowerBI	GitHub
Python	Tableau	MYSQL
Advance Excel	Git	R Programming

PROFESSIONAL EXPERIENCE

Maxgen Technologies Private Limited   July 2023 - Present
Jr. Data Analyst Developer
I have acquired extensive knowledge in using PowerBI, SQL, Tableau, and Python. Data mining, data cleaning, data modeling, and data visualization were basic tasks that I have extensive experience in. I have created prediction models and performed various types of visualization in data. These tasks were made possible by my extensive experience in data mining, data cleaning, data modeling, and data visualization.

The Sparks Foundation   March 2023 - May-2023
Data Analyst
I have worked on several libraries of Python and found them to be very useful in my work as a data analyst. They have allowed me to efficiently process and analyze large amounts of data and have helped me to create accurate prediction models. Overall, my experience with Python libraries has been a valuable asset in my work in data analytics.

Cognizant   January 2020 - February 2022
Agile Methodology Expert
During my project work, I gained knowledge about agile methodology. Specifically, I learned about the cycle of agile methodology and the three phases that it involves. This knowledge has been valuable in helping me to better manage my projects and ensure that they are completed efficiently and effectively

JP Morgan Chase & Co.   October 2022 - November 2022
Investment Banker Intern
. As a result, I decided to explore various investment opportunities in investment banking to potentially capitalize on these trends. It's important to me to make informed decisions when it comes to my investments, and I believe that with the knowledge I've gained, I can make sound choices

Private Firm   September 2022- December 2022
Research Analyst
As part of my work, I had the opportunity to collaborate with the leadership team to identify the most relevant questions to ask and best methods of collecting data. Through this collaboration, we were able to streamline our research processes, which allowed us to meet tight deadlines for multiple projects. By working together and making efficient use of our resources, we were able to achieve our goals and deliver high-quality results.

PROJECTS

Human Resource Analysis
Microsoft PowerBI
I recently had the opportunity to work on a project where we focused on project learning and collaborating with teams to identify key factors that can help reduce attrition. In doing so, we were able to improve our hiring process to ensure that we attract and retain top talent. Through our efforts, we identified key performance indicators that helped us achieve our goals and deliver high-quality results. It was a rewarding experience and I learned a lot from working with my colleagues.

Boston Data Analysis
Python
I had a great project experience where I focused on predicting the data by cleaning the data using Jupyter Notebook and using Seaborn library for data visualization. I also performed Linear Regression and predicted housing prices. It was a rewarding experience even though I worked alone.

Diwali Sales Analysis
Python
I have been worked with a dataset and have gained extensive knowledge in structured query language. Additionally, I have utilized various Python libraries, including Pandas, NumPy, Matplotlib, and Seaborn, to manipulate data and create charts. As part of my work, I have removed several null values from the dataset. Overall, it has been a fulfilling experience that has allowed me to expand my skill set.

Music Store Analysis
SQL
While working on this dataset, I have learned a lot about structured query language. I have used many queries, including select, update, and remove functions. It was a valuable experience that has expanded my skill set

EDUCATION

Bachelor Of Business Administration
Lakshmi Narayan College Of Technology University
 Majors: Analytics and Project Management
 Under this graduation program, I have gained knowledge about both data analysis and business management, which has enabled me to broaden my skill set and become a well-rounded professional

12th
 Elite Higher Secondary School
 Majors: Commerce & Accounts
  During my 12th grade studies, I gained knowledge about Commerce, Accounts, and Economics

10th
 Elite Higher Secondary School
 Majors: Primary
  During my 10th grade studies, I gained a greater knowledge of various subjects and concepts that are a part of higher secondary schooling.

CERTIFICATIONS

Nalsar Certificate Indian Constitution Certification

Artificial Intelligence Prime Certification

Certificate Of Training

Cyber Security Foundation Certification

Data Visualization : Empowering Business With Effective Insights Certification

Human Resources Summit Certification

Spoken English Course Certification

Business Analytics With Excel Certification

Citizen Data Science Using Python Certification

Declaration

I hereby declare that all the above information given is true to the best of my knowledge.
